

Professional support opportunities

Project management

Insurance is a diverse and far-reaching discipline spanning multiple sectors and geographies and having a touchpoint with almost everything we see or do in our day-to-day lives.

As well as requiring experts in specific fields, and support functions to ensure its smooth operation, there is also a fundamental need for the glue that binds all the multiple strands together. And that's where project management, or business management plays a pivotal role.

A multi-functional role with opportunity to be involved in an endless variety of projects and build strong relationships and networks, this a great way to experience many aspects of a career in insurance.

Key role accountabilities:

- Develop a deep understanding of the business operations, processes and strategy in the specific business area you work in.
- Take an objective view of the current operating model and support in developing a target operating model to enhance opportunity for profitable growth.
- Support senior managers and the Exco with the delivery of priority business matters or strategic projects.
- Develop and implement new business initiatives.
- Collaborate with other departments and stakeholders to achieve company goals.
- Assist with the preparation of presentations and proposals.
- Conduct research and analysis to identify new business opportunities.
